

SIMPLE ESTATE/CONTINGENCY PLANNING

We do not know what the future holds for us. At LM Tatum, PLLC we are hopeful and expecting great things, long lives and abundance. We recognize that the responsible thing to do is to try to plan for some of life's unexpected turns as well as the inevitable passing on from this life. We provide assistance in planning on some of life's contingencies by helping our clients with important documents such as:

- Durable Power of Attorney
- Medical Power of Attorney
- Medical Directive;
- Simple Last Will and Testament

These documents become invaluable to our clients and their loved ones. Certain documents help doctors and loved ones to know how you want to be medically treated in a medical situation where you have become incapable of looking out for yourself. Other documents enable your loved ones or someone else you may select to assist you in meeting your personal needs – medical, physical, and financial – when you need assistance. A Will helps family, friends and other loved ones in attending to your affairs when you are no longer here with them.

LM Tatum, PLLC has experience with helping our clients put these invaluable documents in order in the event that they become necessary. Some pre-planning with us now can make a significant difference in the future. Please do give us a call. We would like to help.
